machines

WEP-300

- Can be used in conjunction with MWP-150
- 3 way conference
- Attended Transfer
- Blind Transfer
- Call Hold
- Call Detail
- Call ID Display customizable
- Distinctive Ring
- Capable of receiving and making external calls from Webb VoIP services in place of an analog phone line
- Excellent voice quality
- Web-based configuration
- High Availability option when used in conjunction with the WEX-301 and WAM-HA
- Optional POE

Description: The WEP-300 is Webb adaptor enabling a PSTN interface for IP SIP trunking and VoIP systems. When combined the WEX-301 and WAM-HA provides "High Availability Failover" to your Webb Safe 300 system in under 20 seconds. The WEP-300 is a popular choice for both new construction and retrofit applications.
